Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances the asset allocation pattern will be:

Instruments	Indicative Allocation (% of total assets)	
	Minimum	Maximum
Equity and Equity Related Instruments	80%	100%
Debt and Money Market Instruments*	0%	20%

*Investments in Repo in Corporate debt and corporate reverse repo shall be within the limits prescribed as per SEBI circulars and guidelines issued from time to time.

The asset allocation pattern defined above is mandated under the ELSS Notification. The Scheme intends to meet the requirements of any other Notifications / regulations regarding ELSS that may be issued by the Government / regulatory bodies from time to time. Equity and equity related instruments for the purpose of this Scheme will include equity shares (listed or unlisted), cumulative convertible preference shares and fully convertible debentures and bonds of companies. Investment may also be made in partly convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of 12 months.

Further, it shall be ensured that funds of the Scheme remain invested in equities and equity related instruments to the extent of at least 80%. Pending investment of funds of the scheme in the required manner, the Mutual Fund may invest the funds in short term money market instruments or other liquid instruments or both.

After three years of the date of allotment of the units, the Mutual Fund may hold up to twenty per cent of net assets of the scheme in short-term money market instruments and other liquid instruments to enable them to redeem investment of those unit-holders who would seek to tender the units for repurchase.

The Fund shall not take any leveraged position. The cumulative gross exposure through equity, and debt shall not exceed 100% of the net assets of the scheme in line with Paragraph 12.28 of SEBI Master circular on Mutual Funds dated June 27, 2024.

The Scheme retains the flexibility to invest across all the securities in Debt and Money Market Instruments.

Pending deployment of funds as per the investment objective of the Scheme, the funds of the Scheme may be invested in money market/liquid instruments or both.

Subject to the SEBI (MF) Regulations, 1996, the scheme may engage in short selling.

The Scheme may review the above pattern of investments based on views on interest rates and asset liability management needs. However, at all times the portfolio will adhere to the overall investment

objectives of the Scheme. Subject to the Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions can vary substantially depending upon the perception of the AMC, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be for short term and for defensive considerations only.

Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)

Sl.no	Type of Instrument	Percentage of Exposure	Circular References
1	Debt*	Not investing more than 20% of its net assets of the Scheme in companies belonging to a particular sector as classified by AMFI	Paragraph 12.9.1 of SEBI Master Circular on Mutual Funds dated June 27, 2024
2	HFCs#	Not exceeding 10% of the net assets of the Scheme by way of increase in exposure to Housing Finance Companies (HFCs).	Paragraph 12.9.1 of SEBI Master Circular on Mutual Funds dated June 27, 2024
3	Securitized debt instruments	An additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio	Paragraph 12.15 of SEBI Master Circular on Mutual Funds dated June 27, 2024
4	Unrated instruments,	The scheme shall not invest in this instrument.	-
5	Foreign Securities including securitized debt of foreign companies	The scheme shall not invest in this instrument.	-
6	Equity Linked Debentures	The scheme shall not invest in this instrument.	-
7	ADRs/GDRs	The scheme shall not invest in this instrument.	-
8	Derivatives	The scheme shall not invest in this instrument.	-
9	Repo/reverse repo transactions in Corporate Debt Securities	The scheme shall not invest in this instrument.	-

*The limit shall not be applicable to investment in Bank CDs, TREPS, Government Securities, Treasury Bills, short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks.

#Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 20% of the net assets of the Scheme.

Changes in Investment Pattern:

Subject to the SEBI regulations, the asset allocation pattern indicated above may change from time to time, keeping in view the market conditions, market opportunities, applicable regulations and political and macroeconomic factors. Such changes in the investment pattern will be for short term and defensive considerations only and will be rebalanced within 30 calendar days without any further extension and the intention being at all times to seek to protect the interests of the Unit holders.

Portfolio Rebalancing:

Rebalancing due to Passive Breach.

Pursuant to paragraph 2.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024, in case of any deviation due to passive breaches, the asset allocation would be restored in line with the above-mentioned asset allocation pattern within 30 business days from the date of deviation.

In case the asset allocation is not rebalanced within the above mandated timelines, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. However, at all times the portfolio will adhere to the overall investment objective of the scheme.

In case the scheme is not rebalanced within the aforementioned mandate plus extended timelines:

- a. The AMC shall not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- b. The AMC shall not levy any exit load, (if any), on the investor exiting the Scheme.

In case the AUM of the deviated portfolio is more than 10% of the AUM of the main portfolio of the scheme.

- i. The AMC shall immediately communicate the same to the investors of the scheme after the expiry of the mandated rebalancing period (i.e. 30 Business Days) through SMS and email/ letter including details of portfolio not rebalanced.
- ii. The AMC shall also immediately communicate to the investors through SMS and email/letter when the portfolio is rebalanced.
- iii. The AMC shall disclose scheme wise deviation of the portfolio (beyond aforesaid 10% limit) from the mandated asset allocation beyond 30 business days, on the AMC 's website i.e. <https://navi.com/mutual-fund/downloads/statutory-disclosure>.

The AMC shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

The above mentioned norms shall be applicable to main portfolio only and not to segregated portfolio(s), if any.

Rebalancing in case of Short Term Defensive Consideration

It may be noted that no prior intimation/indication would be given to investors when the composition/asset allocation pattern under the scheme undergo changes within the permitted band as indicated above and for defensive considerations owing to changes in factors such as market conditions, market opportunities, applicable regulations and political and economic factors.

Rebalancing in case of involuntary corporate action

In the event of involuntary corporate action the scheme shall dispose the security not forming part of the underlying index within a day from the date of allotment of Listing.

In case of any breaches in asset allocation, the norms as specified in para 2.9 and 3.5.3.11 of SEBI Master circular dated June 27, 2024 shall be applicable.

B. WHERE WILL THE SCHEME INVEST?

3. Commercial Paper (CP)
4. Treasury Bill (T-Bill)
5. Repo
6. Securities created and issued by the Central and State Governments
7. Non-convertible debentures and bonds
8. Floating rate debt instruments
9. When-issued security
10. Investment in Money Market/Liquid Instruments

Any other instrument as may be permitted under the ELSS guidelines from time to time.

Please refer **Section II** of the document for further details for each instrument.

C. WHAT ARE THE INVESTMENT STRATEGIES?**EQUITY INVESTMENT STRATEGY:**

The fund will invest in stocks of companies that have sustainable business models and are run by management who have proved their prowess in running these companies over business cycles and have respected the rights of minority shareholders. These will include those companies, the businesses of which tend to earn higher return on capital and have a propensity to generate free cash flows.

The benchmark of the scheme is Nifty 500 index, which is a broad index designed to measure the performance of the top 500 companies in India, based on size and liquidity.

It is an appropriate benchmark as it is designed to capture the movement of the relevant segment of the stock market, where the scheme will be focusing its investments.

The Scheme will invest not less than 75% of its assets in companies which have a market capitalization similar to that of the benchmark of the scheme i.e. Nifty 500 index.

A bottom-up fundamental approach will be used for identifying such companies. Our process would be agnostic to the industries in which these companies operate/ size (in terms of revenue, market capitalization) at the time of identification.

Stock identification process would include company and business analysis, industry analysis, future plans, projections, technical analysis and valuations. Based on analysis of various financial and non-financial parameters, the stocks will finally be shortlisted for portfolio construction process.

The Fund Manager of the scheme would also take cues from the global macroeconomic trends, Government policy and monetary policy actions to decide on the asset allocation. The allocations will be within the limits defined in the asset allocation table.

Apart from in-house research, external research is used as an important source of information. Various magazines, journals, newspapers and databases also help in the research process.

Equity Derivatives:

Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at an agreed price. There is an agreement to buy or sell a specified quantity of financial instrument on a designated future date at a price agreed upon by the buyer and seller at the time of entering into a contract. To make trading possible, the exchange specifies certain standardized features of the contract. A futures contract involves an obligation on both the parties to fulfill the terms of the contract.

SEBI has permitted futures contracts on indices and individual stocks with maturity of 1 month, 2 months and 3 months on a rolling basis. The futures contracts are settled on last Thursday (or immediately preceding trading day if Thursday is a trading holiday) of each month. Currently, the futures are settled in cash. The final settlement price is the closing price of the underlying stock(s)/ index.

Option is a contract which provides the buyer of the option (also called holder) the right, without the obligation, to buy or sell a specified asset at the agreed price on or up to a particular date. For acquiring this privilege, the buyer pays premium (fee) to the seller. The seller on the other hand has the obligation to buy or

sell specified asset at the agreed price and for this obligation he receives premium. The premium is determined considering number of factors such as the market price of the underlying asset/security, number of days to expiry, risk free rate of return, strike price of the option and the volatility of the underlying asset. Option contracts are of two types, viz:

Call Option - The option that gives the buyer the right to buy specified quantity of the underlying asset at the strike price is a call option. The buyer of the call option (known as the holder of call option) can call upon the seller of the option (writer of the option) and buy from him the underlying asset at the agreed price at any time on or before the expiry of the option.

The seller (writer of the option) on the other hand has the obligation to sell the underlying asset if the buyer of the call option decides to exercise his option to buy.

Put Option - The right to sell is called put option. A Put option gives the holder (buyer) the right to sell specified quantity of the underlying asset at the strike price. The seller of the put option (one who is short Put) however, has the obligation to buy the underlying asset at the strike price if the buyer decides to exercise his option to sell.

There are two kind of options based on the date of exercise of right. The first is the European Option which can be exercised only on the maturity date. The second is the American Option which can be exercised on or before the maturity date.

For details on Derivative Strategy kindly refer **SAI**.

DEBT INVESTMENT STRATEGY:

The Fund Manager would seek to provide risk adjusted returns by optimizing the trade offs between liquidity, duration (interest rate movement), and credit quality, depending on the macro- economic, technical, and market factors including future course of system liquidity, interest rates, and other fiscal and monetary variables.

The investment strategy starts from analysis, then incorporates limits, looks at portfolio construction and rebalancing, and finally performance monitoring as a feedback loop.

The analysis activity starts from macroeconomic analysis, including fiscal and economic factors, impact of global and local events on India's macro-economy, and finally impact of these on the fixed income market. Technical analysis is undertaken as to the likely range of movement, and deciding the timing. Market activity analysis is looked into to determine liquidity of specific securities. Credit analysis and monitoring is resorted to, and dovetailed with the other analysis to determine credit quality, and ideal spreads where specific securities ought to be trading at. This is a continuous process. All this analysis is sieved through limit filters set by the investment committee.

Based on these results, portfolio construction and rebalancing is carried out. The performance of the portfolio is continuously monitored, and feedback is taken as to the performance of individual securities to test the

assumptions behind the analysis. The assumptions are then tweaked from the learning incorporated by the feedback.

Based on this learning, fresh analysis is carried out for portfolio rebalancing, and the process continuously iterates.

Securities Lending by the Fund

The scheme shall engage in securities lending for equity investments, in line with the SEBI (Mutual Funds) Regulations, 1996, Securities Lending Scheme, 1997, and Paragraph 12.11, 12.11.2.1.b of SEBI Master circular on Mutual Funds dated June 27, 2024 notifying framework for lending of securities and such other applicable guidelines as may be amended from time to time. In accordance with the Regulations and applicable guidelines, the Fund may engage in stock lending activities. The Securities will be lent by the Approved Intermediary against collateral received from borrower, for a fixed period of time, on expiry of which the securities lent will be returned by the borrower. It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, resulting in inadequate value of collateral until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and /or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can also be temporary illiquidity of the securities that are lent out and the scheme may not be able to sell such lent out securities.

Portfolio Construction

The fund manager has the primary responsibility for portfolio construction based on the investment objective of the Scheme. Every investment decision taken is by keeping in mind the investment objective of the Scheme and how the security will affect the overall portfolio.

The Scheme will maintain a well-diversified portfolio focusing on a buy and hold strategy, at most times, as equity investments in companies needs patience for the expected returns to fructify.

In addition, the current macro-economic / industry scenario is also monitored and analyzed to assess any impact on the sector and asset allocation decisions of the fund. Technical views which are relevant to asset allocation, if applicable will also be taken into consideration. The focus would be on long term investing driven by fundamental research. However, short-term performance will also be monitored and evaluated.

Portfolio Turnover:

The Scheme being an open-ended Scheme, it is expected that there would be a number of Subscriptions and Redemptions on a daily basis. Further, in the debt market, trading opportunities may arise due to changes in system liquidity, interest rate policy announced by RBI, shifts in the yield curve, credit rating changes or any other factors. In the opinion of the fund manager these opportunities can be played out to enhance the total return of the portfolio, which will result in increase in portfolio turnover. There may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, the cost would be negligible

as compared to the total expenses of the Scheme. Frequent trading may increase the profits which will offset the increase in costs. The fund manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable measure accuracy, the likely turnover in the portfolio of the Scheme.

The Scheme has no specific target relating to portfolio turnover.

Differential Positioning of Navi ELSS Tax Saver Fund:-

Navi ELSS Tax Saver Fund aims to achieve its objective through investing in a diversified portfolio of equity and equity related instruments with the objective to provide investors with opportunities for capital appreciation and income along with the benefit of income tax deduction (under Section 80 C of the Income Tax Act, 1961) on their investments. Investment in this scheme would be subject to statutory lock-in period of 3 years from the date of allotment to be eligible for income tax benefit under section 80 C. So, this scheme is different from the existing open ended schemes of Navi Mutual Fund.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the Scheme will be benchmarked with NIFTY 500 TRI.

Justification for use of benchmark

The strategy of the scheme is to invest in a diversified portfolio of companies across sectors. The Fund will have the flexibility to invest in companies across the market capitalization spectrum and as such, the constituents of the Nifty 500 Index reasonably represent the portfolio of the scheme. The benchmark and additional benchmark returns shall be calculated at the Total return Index (TRI) variant of the Index chosen.

The Trustee reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to the Regulations and other prevalent guidelines.

- Investments of AMC in the Scheme – Please visit website <https://navi.com/mutual-fund/downloads/statutory-disclosure>.

The AMC may invest in the Scheme(s) anytime during the continuous offer period subject to the SEBI (MF) Regulations, 1996 . The AMC may also invest in existing schemes of the Mutual Fund. As per the existing SEBI (MF) Regulations, 1996 , the AMC will not charge Investment Management and Advisory fee on the investment made by it in the Scheme(s) or existing Schemes of the Mutual Fund.

Subject to Regulation 25(16A) of the SEBI (Mutual Funds) Regulations, 1996 read with paragraph 6.9 of SEBI Master Circular dated June 27, 2024, the AMC shall invest such amounts in such schemes

of the mutual fund, based on the risks associated with the schemes, as may be specified by SEBI from time to time. Such investment shall be maintained at all times and shall not be redeemed unless the scheme is wound up.

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, 1996 , or such norms as may be specified by SEBI from time to time. In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\begin{array}{l} \text{Market or Fair} \\ \text{Value of Scheme's} \\ \text{Investments} \end{array} + \begin{array}{l} \text{Current Assets} \\ \text{including Accrued} \\ \text{Income} \end{array} - \begin{array}{l} \text{Current Liabilities} \\ \text{and Provisions} \end{array}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

The NAV shall be calculated up to four decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Option. The NAVs of the Growth Option and the Dividend Option will be different after the declaration of the first Dividend.

The NAVs will be calculated for all the Business days.

Pursuant to Regulation 49 (3) the repurchase Price of the units of an open ended scheme will not be lower than 95% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only.

Illustration on Computation of NAV: If the net assets of the Scheme are Rs. 10,55,55,000.00 and units outstanding are 1,00,00,000 then the NAV per unit will be computed as follows: 10,55,55,000.00 / 1,00,00,000 = Rs. 10.5555 per unit.

Ongoing price for Redemption (sale) /Switch outs (to other schemes/plans of the Mutual Fund) by Investors.

Ongoing price for redemption /Switch out (to other Schemes/Plans of the Mutual Fund) is the price which a Unit holder will receive for redemption/Switch-outs. During the continuous offer of the Scheme, the Unit holder can redeem the Unit at Applicable NAV, subject to payment of Exit Load, if any.

For other details such as policies w.r.t computation of NAV, rounding off, procedure in case of delay in disclosure of NAV etc. **refer to SAI.**

B. NEW FUND OFFER (NFO) EXPENSES

This is an ongoing scheme on the date of updating this document.

C. ANNUAL SCHEME RECURRING EXPENSES

The AMC has estimated the following total expense ratio upto 2.25 % of the daily net assets of the Scheme.

For the actual current expenses being charged, the investor may refer to the website of the Mutual Fund (<https://navi.com/mutual-fund/downloads/disclosure-sid-kim>). Further, the disclosure of Total Expense Ratio (TER) on a daily basis shall also be made on the website of AMFI (www.amfiindia.com).

The Mutual Fund would update the current expense ratios on the website at least three Business days prior to the effective date of the change.

Additional expenses under regulation 52 (6A) (c) ³	Upto 0.05%
Additional expenses for gross new inflows from specified cities ⁴	Upto 0.30%

As per Paragraph 10.1.3 of SEBI Master Circular dated June 27, 2024, and AMFI Circular No. CIR/ ARN-23/ 2022-23 dated March 07, 2023, the B-30 incentive structure for new inflows has been kept in abeyance with effect from March 01, 2023, till the incentive structure is appropriately re-instated by SEBI with necessary safeguards.

Notes:

- 1) Brokerage and transaction costs which are incurred for the purpose of execution of trades up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions. Any amount towards brokerage & transaction costs, over and above the said 12 bps for cash market transactions may be charged to the scheme within the maximum limit of total expenses ratio as prescribed under Regulation 52(6) of the SEBI (MF) Regulations, 1996 .
- 2) Additional expenses, incurred towards different heads mentioned under sub-regulations (2) and (4) of Regulation 52 of the Regulations, not exceeding 0.05 percent of daily net assets of the scheme. Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable.
- 3) Goods and Services Tax (GST) on expenses other than investment any advisory fees, if any, shall be borne by the scheme within the maximum limit of total expenses ratio as prescribed under Regulation 52 (6) of the SEBI (MF) Regulations, 1996 .

Goods and Services Tax (GST) on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the SEBI (MF) Regulations, 1996 .

Goods and Services Tax (GST) on investment management and advisory fees shall be charged to the Scheme in addition to the maximum limit of total expenses ratio as prescribed under Regulation 52 (6) of the SEBI (MF) Regulations, 1996 .

- 4) Expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by AMFI data, from time to time are at least (a) 30 per cent of the gross new inflows into the scheme, or (b) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher;

In case inflows from such cities are less than the higher of (a) or (b) above, such expenses on daily net assets of the scheme shall be charged on proportionate basis in accordance with Paragraph 10.1.3 of SEBI Master Circular on Mutual Funds dated June 27, 2024.

The expenses so charged shall be utilised for distribution expenses incurred for bringing inflows from such cities. However, the amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment. Provided further that the additional TER can be charged based on inflows only from retail investors (Paragraph 10.1.3 of SEBI Master Circular on Mutual Funds dated June 27, 2024, has defined that inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from —retail investor) from beyond top 30 cities. Provided that the additional commission for beyond top 30 cities shall be paid as trail only.

These estimates have been made in good faith as per the information available to and estimates made by the Investment Manager and are subject to change inter-se or in total subject to prevailing Regulations. Type of expenses charged shall be as per the Regulations. The AMC may incur actual expenses which may be more

or less than those estimated above under any head and/or in total. As per the AMFI Letter 35P/ MEM-COR/ 85-a/ 2022-23 dated March 03, 2023, the above B-30 incentive structure shall be in abeyance till further guidelines by SEBI.

The Total expense ratio (including Investment and Advisory Fees) will be subject to the maximum limits (as a percentage of Daily Net Assets of the Scheme) as per Regulation 52 of SEBI Regulations, as amended from time to time, with no sub-limit on Investment and Advisory fees.

Navi Mutual Fund would update the current expense ratios on the website at least three Business days prior to the effective date of the change.

For the actual current expenses being charged, the Investor should refer to the website of the AMC (<https://navi.com/mutual-fund/downloads/disclosure-sid-kim>).

Direct Plan shall have a lower expense ratio. Commission/ Distribution expenses will not be charged in case of Direct Plan. The TER of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses/commission which is charged in the Regular Plan.

Any other expenses which are directly attributable to a Scheme maybe charged with the approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited. The recurring expenses of the Scheme (including the Investment Management and Advisory Fees) shall be as per the limits prescribed under the SEBI (MF) Regulations, 1996 .

The recurring expenses of the Scheme (excluding additional expenses under regulation 52(6A)(c) and additional distribution expenses for gross inflows from specified cities), as per SEBI Regulations are as follows:

D. LOAD STRUCTURE

Load is an amount, which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC; <https://navi.com/mutual-fund/downloads/disclosure-sid-kim> or may call at 18002032131 or your distributor.

As per clause 8.6 of SEBI Master Circular dated June 27, 2024, has decided that there shall be no entry Load for all Mutual Fund Schemes.

Type of Load	Load chargeable (as %age of NAV)
Exit Load	NIL

However, the Trustee shall have a right to prescribe or modify the load structure with prospective effect subject to a maximum prescribed under the Regulations.

In accordance with clause 10.8.1 of SEBI Master Circular on Mutual Funds dated June 27, 2024, to bring about parity among all class of unit holders, no distinction among unit holders would be made based on the amount of subscription while charging exit loads. The exit load charged, if any, shall be credited to the scheme. Goods and Services tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services tax shall be credited to the schemes.

Units issued on reinvestment of dividends for existing as well as prospective investors shall not be subject to load structure.

The investor is requested to check the prevailing load structure of the scheme before investing. Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of such load.

(iv) Any other measure which the Mutual Fund may consider necessary.

The Trustee/AMC reserves the right to change the load structure subject to the limits prescribed under the Regulations. Any change in Load structure shall be only on a prospective basis i.e. any such changes would be chargeable only for Redemptions from prospective purchases (applying first in first out basis).

E. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

Pursuant to paragraph 6.11 of SEBI Master Circular on Mutual Fund dated June 27, 2024, the Scheme shall have

- a. minimum of 20 investors and
- b. no single investor shall account for more than 25% of the corpus of the Scheme.

In case the Scheme does not have a minimum of 20 investors, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations, 1996 would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over 25% limit. Failure on the part of the said investor to redeem his exposure over 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

Section II

I. Introduction

A. Definitions/interpretation

For detailed description please refer <https://navi.com/mutual-fund/downloads/statutory-disclosure>

B. Risk factors

i. Scheme Specific Risk Factors

Risks associated with Equity and Equity Related Instruments:

Equity and Equity Related Instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as price volatility, volumes traded, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Scheme may be adversely affected.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, if there is a subsequent decline in the value of securities held in the Scheme's portfolio.

Investments in equity and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

Risks associated with Fixed Income Securities:

Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds and Money Market Instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

Re-investment Risk: Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk: The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Credit Risk: This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Settlement Risk: Corporate Bond Repo will be settled between two counterparties in the OTC segment unlike in the case of TREPS transactions where CCIL stands as central counterparty on all transactions (no settlement risk). Settlement risk in reverse repo will be mitigated by requiring the counterparty (entity borrowing funds from the Mutual Fund) to deliver the defined collateral in the account of the MF before the cash is lent to the counterparty. Further, the Mutual Fund will also have a limited universe of counterparties comprising of Scheduled Commercial Banks, Primary Dealers, Mutual Funds and National Financial Institutions.

Risks associated with Short Selling

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The inherent risks are Counterparty risk and liquidity risk of the stock/security being borrowed. The security being short sold might be illiquid or become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses.

Risk factors associated with processing of transactions through Stock Exchange Mechanism

The trading mechanism introduced by the Stock Exchange(s) is configured to accept and process transactions for mutual fund Units in both Physical and Demat Form. The allotment and/or redemption of Units through

NSE and/or BSE or any other authorized Stock Exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing /settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the Stock Exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized Stock Exchange(s).

Risk factors related to Navi ELSS Tax Saver Fund

In line with the provisions stipulated under the ELSS scheme, 2005, units issued under the Scheme will not be redeemed until the completion of 3 (three) years from the date of allotment of units. The ability of an investor to realize returns on investments in the Scheme will consequently be restricted for the first 3 (three) years. Redemption can be made prior to the expiry of the aforesaid 3 (three) years period only in the event of the death of a Unit Holder, subject to the Units having been held for a period of 1 (one) year from the date of their allotment.

Risks associated with Derivatives Transactions:

Systematic Risk: Systematic Risk is the risk associated with the entire market. Unlike unsystematic risk, it is not linked to a specific security or sector. Systematic risk is a market risk which can be due to macro-economic factors, news events, etc.

Mark to Market Risk: This risk is on account of day to day fluctuations in the underlying Security and its derivative instrument, which can adversely impact the portfolio.

Credit Risk: The credit risk is the risk that the counter party will default in its obligations and is generally small as in a Derivative transaction there is generally no exchange of the principal amount.

Interest rate risk: Derivatives carry the risk of adverse changes in the price due to change in interest rates.

Basis Risk: When a security is hedged using a Derivative, the change in price of the security and the change in price of the Derivative may not be fully correlated leading to basis risk in the portfolio.

Liquidity risk: During the life of the Derivative, the benchmark might become illiquid and might not be fully capturing the interest rate changes in the market, or the selling, unwinding prices might not reflect the underlying assets, rates and indices, leading to loss of value of the portfolio.

Model Risk: The risk of mis-pricing or improper valuation of Derivatives.

Trade Execution: Risk where the final execution price is different from the screen price, leading to dilution in the spreads and hence impacting the profitability of the reverse arbitrage strategy.

Systemic Risk: For Derivatives, especially OTC ones the failure of one Counter Party can put the whole system at risk and the whole system can come to a halt.

The scheme may invest in various derivative products in accordance with and to the extent permitted under the regulations from time to time.

Derivatives are financial contracts of pre-determined fixed duration, like stock Futures /options and index futures and options, whose values are derived from the value of an underlying primary financial instrument such as: Equities, Interest rates, Exchange rates and Commodities.

Derivative products are specialized instruments that require investment techniques and risk analysis which are different from those associated with stocks and other traditional securities.

Derivatives are highly leveraged instruments and a small price fluctuation in the underlying can have a larger impact on its value. Thus, its use can lead to disproportionate gains or losses to the portfolio. Execution of derivatives instruments depends on the ability of the fund manager to identify good opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

"The risks associated with the use of Derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments."

Risk associated with Short Selling & Securities Lending

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The inherent risks are Counterparty risk and liquidity risk of the stock/security being borrowed. The security being short sold might be illiquid or become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses.

C. Risk Mitigation measures

Risk and investment are two sides of the same coin of Fund Management. Effective risk management is crucial for achieving good performance. Adequate safeguards would be incorporated in the portfolio management process. The main instrument for reducing risk is through diversification. The Fund Manager's job is to identify securities which offer higher returns with a lower level of risk.

The fund will endeavour to manage the various risks associated with investing in equity and equity related instruments. Risk is expected to be reduced through diversification of portfolio across various sectors and market capitalizations. The various types of risks identified and their risk management strategies are as follows:

Risk Type	Risk Management Strategy
Quality Risk: Risk of investing in unsustainable / weak companies	Investment Universe to be created based on qualitative and quantitative factors so as to select good quality companies.
Price Risk: Risk of overpaying for a stock	A detailed research to be done on a company before investing, about business fundamentals and valuations.
Concentration Risk: Risk of Concentration	To invest across the market capitalization spectrum and across various industries/sectors.
Volatility Risk: Price Volatility due to company or portfolio specific factors	To monitor overall portfolio volatility and control risk - stock / sector exposures as required.
Event Risk: Price risk due to company, sector specific or market event	Understand businesses, macro-economic and global events so as to respond to events effectively and speedily.
Liquidity Risk: High Impact Costs	To control liquidity at the portfolio construction stage.

Risk Mitigation measures for the 3 major risks associated with fixed income securities are given below:

Interest Rate Risk Fixed income securities such as government bonds, corporate bonds and Money Market Instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.	The modified duration of a portfolio is one of the means of measuring the interest rate risk of the portfolio. Higher is the modified duration, the fund stands exposed to a higher degree of interest rate risk. The Fund Manager would decide on the modified duration to be maintained for the portfolio at a particular point of time after taking into account the current scenario and the investment objective of the scheme. The portfolio duration will be decided after doing a thorough research on the general macroeconomic condition, political environment, systemic liquidity, inflationary expectations, corporate performance and other macroeconomic considerations. The Investment Committee of the AMC would be monitoring the portfolios constantly and would be giving direction regarding portfolio modified duration to the Fund Manager.
Credit Risk This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument	The Investment Team would follow a bottom up approach to create a debt Investment universe. The investment team would carry out rigorous in depth

defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.	credit evaluation of the money market and debt instruments the scheme proposes to invest in. The credit evaluation will essentially be a bottom up approach and include a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term / long term financial health of the issuer. Data from external Credit Rating Agencies like CRISIL, ICRA, FITCH and CARE would be taken into account while constructing this universe. This universe would be constantly monitored by the Investment Committee which would recommend any additions/ deletions from the investment universe.
<u>Liquidity Risk</u> The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.	The Fund Manager would maintain adequate cash/cash equivalent securities to manage the day to day redemptions of the fund. Attention would be given to the historic redemption trends while deciding on the cash equivalent component of the portfolios. Also the Fund Manager and Dealer would be keeping track of various securities being traded in the market and would strive to keep the component of illiquid securities in the portfolio at a low percentage of the total portfolio.

II. Information about the scheme:

A. Where will the scheme invest?

The corpus of the Scheme shall be invested in Equity and Equity related instruments and debt and money market instruments which will include but not limited to:

Equity and Equity Related Instruments:

1. Equity Shares.
2. Convertible bonds and debentures, convertible preference shares and warrants carrying the right to obtain equity shares.
3. Equity Derivatives

Any other instrument as may be permitted under the ELSS guidelines from time to time.

Units issued by REITs and InvITs as per SEBI guidelines

Debt and Money Market Instruments:

Tri-party repo (TREPS)

Tri-party repo means a repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction. TREPS facilitates, borrowing and lending of funds, in Triparty Repo arrangement.

Certificate of Deposit (CD) of scheduled commercial banks and development financial Institutions

Certificate of Deposit (CD) is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year.

Commercial Paper (CP)

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and All India Financial Institutions as an alternative source of short term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity.

Treasury Bill (T-Bill)

Treasury Bills (T-Bills) are issued by the Government of India to meet their short term borrowing requirements. T-Bills are issued for maturities of 14 days, 91 days, 182 days and 364 days. Bill Rediscounting (bills of exchange/promissory notes of public sector and private sector corporate entities).

Repo

Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. Presently in India, G-Secs, State Government securities and T-Bills are eligible for Repo/Reverse Repo.

Securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.

Non-convertible debentures and bonds

Non-convertible debentures as well as bonds are securities issued by companies / Institutions promoted / owned by the Central or State Governments and statutory bodies which may or may not carry a Central/State Government guarantee, Public and private sector banks, all India Financial Institutions and Private Sector Companies. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements. The Scheme may also invest in the non-convertible part of convertible debt securities.

Floating rate debt instruments

Floating rate debt instruments are instruments issued by Central / state governments, corporates, PSUs, etc. with interest rates that are reset periodically.

When-issued security

When, as and if issued' (commonly known as "**when-issued**" (**WI**) **security**) refers to a security that has been authorized for issuance but not yet actually issued. WI trading takes place between the time a new issue is announced and the time it is actually issued. All "when issued" transactions are on an "if" basis, to be settled if and when the actual security is issued.

SEBI has on April 16, 2008, in principle allowed Mutual Funds to undertake 'When Issued (WI)' transactions in Central Government securities, at par with other market participants.

- Open Positions in the 'WI' market are subject to the following limits:

Category	Reissued Security	Newly Issued Security
Non-PDs	Long Position, not exceeding 5 percent of the notified amount.	Long Position, not exceeding 5 percent of the notified amount.

Any other instrument as may be permitted under the ELSS guidelines from time to time.

Investment in Money Market/Liquid Instruments

Pending deployment of funds as per the investment objective of the Scheme, the funds of the Scheme may be invested in money market/liquid instruments or in both.

The scheme shall engage in securities lending for equity investments, in line with the and Paragraph 12.11, 12.11.2.1.b of SEBI Master circular on Mutual Funds dated June 27, 2024, notifying framework for lending of securities and such other applicable guidelines as may be amended from time to time.

The securities / instruments mentioned above and such other securities the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated and of any maturity. The securities may be acquired through initial public offering (IPOs), secondary market, private placement, rights offers, negotiated deals.

Debt and Money Markets in India

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities (G-Secs) market is the oldest and the largest component of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Secs market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like Cash management bills (CMBs), zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is a significant and growing part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks), Cash Management Bills (CMBs issued by RBI) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and non-government debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Tri-party repo (TREPS)
- Repo/Reverse Repo Agreement
- Treasury Bills
- Government securities with a residual maturity of < 1 year.
- Commercial Paper
- Certificate of Deposit
- Cash Management Bills

Though not strictly classified as Money Market Instruments, PSU / DFI / Corporate paper with a residual maturity of less than 1 year, are actively traded and offer a viable investment option.

The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade at competitive yields on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

The following table gives approximate yields prevailing on March 31, 2025, on some of the instruments and further illustrates this point.

Instrument	Yield Range
3-month Treasury Bill	6.34 %
1 Year Treasury Bill	6.44 %
Long Term Gsec (5 to 10 Years) Gsec	6.45 % to 6.58 %
3 month CD (A1+)	7.52 %
3 Month CP (A1+)	7.6 %

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro-economic conditions and RBI policy. The price and yield on various

debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

For applicable regulatory investment limits please refer paragraph **"Investment Restrictions."**

The Fund Manager reserves the right to invest in such securities as maybe permitted from time to time and which are in line with the investment objectives of the Scheme.

B. What are the investment restrictions?

Pursuant to SEBI (MF) Regulations, 1996 , the following investment restrictions are applicable to the scheme:

1. The Scheme shall not invest more than 10 per cent of its NAV in equity shares or equity related instruments of any company. Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.
2. All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.

- b) representation on the board of the asset management company or the trustee company of any other mutual fund.

Any person not in conformity with the sub-regulations (1) and (2) of this regulation, as on the date of the coming into force of this regulation shall comply with sub-regulations (1) and (2) within a period of one year from the date of the coming into force of this regulation i.e. March 3, 2018.

7. A mutual fund scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments:

Provided that Mutual Fund Schemes may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the scheme subject to such conditions as may be specified by the Board from time to time:

Provided further that mutual fund schemes shall comply with the norms under this clause within the time and in the manner as may be specified by the Board:

Provided further that the norms for investments by mutual fund schemes in unrated debt instruments shall be specified by the Board from time to time.

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt and Money market instruments shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

8. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - i) such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - ii) the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
 - iii) IST purchases would be allowed subject to the guidelines as specified in Paragraph 12.30 of SEBI Master circular on Mutual Funds dated June 27, 2024.
9. The Scheme may invest in other schemes of the Mutual Fund or any other mutual fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund. Provided that this clause shall not apply to any fund of funds scheme
10. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

However the Mutual Fund may engage in Short selling and securities lending in accordance with the framework relating to Short Selling and securities lending and borrowing specified by SEBI.

Provided further that the Mutual Fund may enter into Derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.

The sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.
11. The Mutual Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.
12. Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the paragraph 12.16, 12.16.1.6, 12.16.1.8 and 12.16.1.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024, as may be amended from time to time:

The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits:

- “Short Term” for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days. Such short-term deposits shall be held in the name of the Scheme.
- The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
- Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- The Scheme shall not park funds in short term deposit of a bank which has invested in that Scheme. Trustees/AMCs shall also ensure that the bank in which a scheme has STD do not invest in the said scheme until the scheme has STD with such bank. However, the above provisions will not apply to term deposits placed as margins for trading in cash and Derivatives market.
- The AMC shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
- The above norms do not apply to term deposits placed as margins for trading in cash and derivatives market. However, all term deposits placed as margins shall be disclosed in the half yearly portfolio statements under a separate heading. Details such as name of bank, amount of term deposits, duration of term deposits, percentage of NAV should be disclosed.

13. The mutual fund will follow the paragraph 12.25 of SEBI Master Circular on Mutual Funds dated June 27, 2024 on review of norms for investment and disclosure by mutual funds in derivatives.

i. Position limit for the Mutual Fund in equity index options contracts

AMFI Best Practice Guidelines Circular No.118 /2024-25) on Acceptance of financial transactions through email in respect of non-individual investor.	<p>Non-individual Investors are requested to note the following:</p> <p>Risks Involved in Transacting via Email:</p> <p>The Non-individual investor acknowledges and accepts the inherent risks associated with conducting financial transactions via email. These risks include, but are not limited to, the possibility of unauthorized access to email communications, transmission delays, data loss, or alteration due to technical glitches or cyberattacks, which could impact the completeness or accuracy of the transaction. Additionally, emails may be susceptible to interception, unauthorized access, and other security vulnerabilities, which could lead to fraudulent transactions. Therefore, investors must be cautious while initiating financial transactions via email and should ensure the confidentiality and integrity of their communication.</p> <p>Limitation of Liability of AMC / RTA:</p> <p>The Asset Management Company (AMC) and the Registrar and Transfer Agent (RTA) shall not be held liable for any loss or damage caused by the non-receipt or delay in receiving any transaction sent by the investor via email. This includes situations where emails are not delivered, are delayed, or are intercepted due to issues beyond the control of the AMC or RTA, including but not limited to, technical failures, service provider errors, or unauthorized access to the email account. The AMC and RTA will not be responsible for any transactions that are erroneously processed or not processed due to such issues. The liability of the AMC and RTA is limited</p>

	<p>solely to the extent of ensuring that the transaction is processed once received in the proper format and within a reasonable timeframe, subject to system availability and security checks.</p> <p>Security Measures to Ensure Safe Email Communication: The AMC and RTA are committed to ensuring the highest level of security for email communications and shall implement appropriate safeguards. These measures include the use of encrypted email services, secure authentication protocols, and virus/malware scanning for all incoming and outgoing emails. Additionally, access to email accounts and transaction systems shall be restricted to authorized personnel only, and multi-factor authentication will be employed to verify the identity of the individuals initiating transactions. The AMC shall take all reasonable steps to prevent unauthorized access, disclosure, or alteration of the financial data transmitted via email.</p> <p>Retention of Transaction Records: The AMC and RTA will retain records of all transactions routed via email in accordance with applicable laws and regulations. These records will include, but are not limited to, transaction requests, email correspondence, and confirmation receipts, for a minimum period as mandated by regulatory authorities. The Non-Individual investor agrees that these records shall be stored in a secure digital format to ensure their integrity and availability for future reference. In addition, the AMC shall maintain an audit trail for each transaction, allowing for the traceability of emails and the status of each request submitted via email.</p> <p>Procedure for Addition/Deletion of Authorized Signatories: The facility to transact via email shall follow an appropriate procedure for the addition or deletion of authorized signatories. Such changes must be communicated to the AMC through a formal notification, in the form of a signed letter or email from the authorized representative of the entity, accompanied by the requisite board resolution or authority letter. The AMC shall process these changes only upon receipt of valid documentation confirming the updated list of authorized signatories. These changes will only be effective once the AMC has acknowledged receipt and validation of the notification.</p> <p>Authorization for Non-Individual Investors: For non-individual investors, including registered mutual fund distributors or third parties authorized by the investor, to submit financial transactions via email on behalf of the entity, the AMC and RTA require prior written authorization from the investor. This authorization should clearly state the scope of authority granted to the third party and must be submitted with</p>
--	--

	<p>each transaction request. The AMC will accept such transactions only if the relevant authorization documents are in place and the email corresponds with the pre-registered contact information for the entity or authorized third party.</p> <p>Security Procedures for Transaction Confirmation: To confirm and authenticate email-based financial transactions, the AMC will employ a range of security procedures, including digital signatures, encrypted communication, and multi-step verification processes. These procedures are designed to verify that the transaction is genuinely authorized by the investor and ensure that the instructions have not been tampered with. Upon receipt of an email transaction, the AMC will conduct thorough checks to confirm the authenticity of the request, including comparing it against the pre-registered information (email addresses, signatories, etc.). Only upon successful verification will the transaction be processed.</p> <p>Electronic Time Stamping and Audit Trail for Email Transactions: Each transaction processed via email shall be subject to an electronic time-stamping mechanism that records the exact time and date of receipt. This time stamp will serve as a reference point for any future inquiries or disputes regarding the transaction. Furthermore, AMC shall maintain an audit trail, tracking all actions related to the email transaction, including receipt, verification, and processing. The audit trail will provide transparency, ensure accountability, and facilitate the resolution of any issues related to email-based transactions.</p> <p>Change in Registered Email Address / Contact Details: Any change in the registered email address or contact details of the entity must be communicated to the AMC via a physical letter, including a scanned copy, signed by the designated authorized officials of the entity. This change request must also be supported by a copy of the relevant board resolutions or authority letter from the entity, issued on the official letterhead. The AMC will not accept email requests for such changes. Further, changes in the registered email address will not be processed unless the request complies with these requirements. This ensures that only authorized personnel can modify the contact details associated with the Non-individual investor's account.</p> <p>Changes in Bank Mandate: No changes to the bank mandate (including adding or modifying bank account details) will be accepted via email. Such changes must be submitted using the prescribed service request form, duly signed by the entity's authorized signatories. The form must also be accompanied by the wet</p>
--	---

	<p>signatures of the designated officials of the entity. This ensures the authenticity and validity of any change in the bank details associated with the Non- individual Investor's account, and that no unauthorized modifications are made via email.</p> <p>.Digital Signatures and Validity of Electronically Executed Documents: In case of any document executed electronically, the AMC recognizes the validity of Digital Signature Certificates (DSCs) or Aadhaar-based e-signatures provided by the authorized officials of the entity. These digitally signed documents will be treated as legally binding and valid, even if they are not sent from the registered email address of the authorized officials. However, the email domain from which the document is sent must match the official domain name of the entity. Such documents, when executed with a valid DSC or e-signature, will be processed by the AMC without requiring further verification through physical signatures</p>

B. Transparency/NAV Disclosure

The AMC will calculate the NAVs for all the Business Days. The Net Asset Value of the scheme shall be calculated on daily basis and disclosed in the manner specified by SEBI. The Asset Management Company ("AMC") shall update the NAVs on its website (<https://navi.com/mutual-fund>) and of the Association of Mutual Funds in India ("AMFI") (www.amfiindia.com) before 11.00 p.m. every Business Day. In case of any delay, the reasons for such delay would be explained to AMFI in writing. If the NAVs are not available before the commencement of Business Hours on the following day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAV.

The AMC will disclose the portfolio of the Scheme within ten days from the close of each half year (i.e. 31st March and 30th September) by sending a complete statement to all the Unit holders in the manner specified by SEBI.

The AMC will make available the Annual Report of the Scheme within four months of the end of the financial year.

C. Transaction charges and stamp duty

Transaction Charges

No transaction charges shall be deducted.

Stamp Duty

A stamp duty @0.005% of the transaction value would be levied on applicable mutual fund transactions, with effect from July 01, 2020. Pursuant to levy of stamp duty, the number of units allotted on purchase transactions (including dividend reinvestment) to the unitholders would be reduced to that extent.
