Part I. HIGHLIGHTS/SUMMARY OF THE SCHEME

Sr. No.	Title	Description
I	Name of the scheme	Navi Flexi Cap Fund
II	Category of the Scheme	Equity Fund
III	Scheme type	Equity Scheme
IV	Scheme code	NAVI/O/E /FCF/18/05/0009
V	Investment objective	To generate capital appreciation in the long term through equity investments by investing in a diversified portfolio of large cap, mid cap and small cap companies as defined by SEBI from time to time. There is no assurance that the investment objective of the Scheme will be achieved.
VI	Liquidity/listing details	The Scheme offered being an open-ended scheme will offer Units for Sale / Switch-in and Redemption / Switch-out on every Business Day at NAV based prices.
VII	Benchmark (Total Return Index)	Name of Benchmark: NIFTY 500 TRI. Justification for use of benchmark: NIFTY 500 TRI represents the top 500 companies based on full market capitalisation from the eligible universe. The NIFTY 500 Index represents substantial portion of the free float market capitalization of the stocks listed on NSE and hence, we consider the above mentioned benchmark to be appropriate to compare the performance of this scheme. The benchmark and additional benchmark returns shall be calculated at the Total return Index (TRI) variant of the Index chosen.
VIII	NAV disclosure	The AMC will calculate the NAVs for all the Business Days. The Net Asset Value of the scheme shall be calculated on daily basis and disclosed in the manner specified by SEBI. The Asset Management Company ("AMC") shall update the NAVs on its website (https://navi.com/mutual-fund/downloads/statutory-disclosure) of the Association of Mutual Funds in India ("AMFI") (www.amfiindia.com) before 11.00 P.M. every Business Day. For further details refer Section II.
IX	Applicable timelines	Timeline for Dispatch of Redemption proceeds: Under normal circumstances the AMC shall endeavour to dispatch the Redemption proceeds within 01 Business Day from date of receipt of request from the Unit holder. As per SEBI Regulations, the Mutual Fund shall dispatch redemption proceeds within 03 Business Days of receiving a valid redemption request.

		Timeline for Dispatch of Dividend: The Dividend warrants/cheque/demand draft shall be dispatched to the Unit holders within 07 working days from the Record Date. In the event of failure of dispatch of IDCW within the stipulated 07 working Day period, the AMC shall be liable to pay interest @ 15 percent per annum to the Unit holders.								
X	Plans and Options Plans/Options and sub options under the Scheme	The Scheme has following Plans: Regular & Direct Plan Each of the Plans shall have two options: i. Growth ii. Income Distribution cum capital withdrawal option (IDCW) IDCW Option has the following two facilities: (i) Payout of Income Distribution cum capital withdrawal option (ii) Reinvestment of Income Distribution cum capital withdrawal option IDCW Frequency: Normal, Monthly, Quarterly, Half yearly & Annual If IDCW payable under Payout of Income Distribution cum capital withdrawal option is equal to or less than Rs. 100/- then the Dividend would be compulsorily reinvested in the option of the Scheme. In case of valid application received without indicating any choice of Option, the following Default Option will be considered for allotment: - o Growth Option - where Growth or IDCW Option is not indicated; - o Reinvestment of Income Distribution cum capital withdrawal option - where Payout or Reinvestment is not indicated under IDCW Option. Default Frequency – Normal Investors should indicate the Plan/Option for which the subscription is made by indicating the choice in the appropriate box provided for the purpose in the application form. The following criteria will be considered for Uniform disclosure on treatment of applications under Direct/Regular plans:

		4	Mentioned	Direct	Direct Plan
		5	Direct	Not Mentioned	Direct Plan
		6	Direct	Regular	Direct Plan
		7	Mentioned	Regular	Regular Plan
		8	Mentioned	Not Mentioned	Regular Plan
		In cases of wrong/ invalid/ incomplete ARN codes mentioned on the application form, the application shall be processed under Regular Plan. The AMC shall contact and obtain the correct ARN code within 30 calendar days of the receipt of the application form from the investor/ distributor. In case, the correct code is not received within 30 calendar days, the AMC shall reprocess the transaction under Direct Plan from the date of application without any exit load. The amounts can be distributed under Income Distribution cum capital withdrawal option (IDCW) out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains. However, investors are requested to note that amount (dividend) distribution under IDCW option is not guaranteed and subject to availability of distributable surplus. A clear segregation between income distribution (appreciation on NAV) and capital distribution (Equalization Reserve) shall be suitably disclosed in the Consolidated Account Statement provided to the investors, whenever distributable surplus is distributed. The Plans and Options stated above will have a common portfolio but separate NAVs, as applicable, shall be applied among Plans and Options. For detailed disclosure on default plans and options, kindly refer SAL.			
XI	Load Structure	Exit Load: NIL Redemption of units would be done on First in First out Basis (FIFO). As per paragraph 10.4 of SEBI Master Circular on Mutual Funds dated June 27, 2024, no entry load will be charged by the scheme to the investor.

As per investment restrictions specified in the Seventh schedule of SEBI (Mutual Fund) Regulations, 1996, the Scheme may invest in other schemes of the Mutual Fund or any other mutual fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund.

Pending deployment of the funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of the Scheduled Commercial Banks, subject to the paragraph 12.16, 12.16.1.6, 12.16.1.8 and 12.16.1.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024, as may be amended from time to time.

Subject to the SEBI (MF) Regulations, 1996 and in accordance with Securities Lending Scheme, 1997, and Paragraph 12.11, 12.11.2.1.b of SEBI Master circular on Mutual Funds dated June 27, 2024, as may be amended from time to time, the Scheme may engage in short selling and borrowing and lending of securities.

Changes in Investment Pattern: Portfolio Rebalancing:

Rebalancing due to Passive Breaches

Pursuant to paragraph 2.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024, in case of any deviation due to passive breaches, the asset allocation would be restored in line with the above-mentioned asset allocation pattern within 30 business days from the date of deviation.

In case the asset allocation is not rebalanced within the above mandated timelines, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. However, at all times the portfolio will adhere to the overall investment objective of the scheme.

In case the scheme is not rebalanced within the afore mentioned mandate plus extended timelines:

- a. The AMC shall not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- b. The AMC shall not levy any exit load, (if any), on the investor exiting the Scheme.

In case the AUM of the deviated portfolio is more than 10% of the AUM of the main portfolio of the scheme.

- i. The AMC shall immediately communicate the same to the investors of the scheme after the expiry of the mandated rebalancing period (i.e. 30 Business Days) through SMS and email/ letter including details of portfolio not rebalanced.
- ii. The AMC shall also immediately communicate to the investors through SMS and email/letter when the portfolio is rebalanced.
- iii. The AMC shall disclose scheme wise deviation of the portfolio (beyond aforesaid 10% limit) from the mandated asset allocation beyond 30 business days, on the AMC 's website i.e. <https://navi.com/mutual-fund/downloads/statutory-disclosure>.

The AMC shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

The above mentioned norms shall be applicable to main portfolio only and not to segregated portfolio(s), if any.

Rebalancing due to Short term defensive consideration:

It may be noted that no prior intimation/indication would be given to investors when the composition/asset allocation pattern under the scheme undergo changes within the permitted band as indicated above and for defensive considerations owing to changes in factors such as market conditions, market opportunities, applicable regulations and political and economic factors.

Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the Regulations.

Rebalancing in case of involuntary corporate action.

In the event of involuntary corporate action the scheme shall dispose the security not forming part of the underlying index within a day from the date of allotment of Listing.

In case of any breaches in asset allocation, the norms as specified in para 2.9 and 3.5.3.11 of SEBI Master circular on Mutual Funds dated June 27, 2024 shall be applicable.

B. WHERE WILL THE SCHEME INVEST?

The corpus of the Scheme shall be invested in Equity and Equity related instruments, debt and money market instruments and in InvITs which will include but not limited to:

C. WHAT ARE THE INVESTMENT STRATEGIES?

EQUITY INVESTMENT STRATEGY:

The Scheme would adopt top-down and bottom-up approach of investing and will aim at being diversified across various industries and / or sectors and/ or market capitalization. The investment emphasis of the scheme would be on identifying companies with sound corporate managements and prospects of good future growth. Essentially, the focus would be on stocks driven by long-term fundamentals. However, short term opportunities would also be seized, provided underlying values supports these opportunities. A portion of the scheme will also be invested in IPOs, emerging sectors, concept stocks and other primary market offerings that meet our investment criteria. The scheme would invest a substantial portion of its investible assets (65% - 100%) in equity and equity related instruments. Pending investment of the scheme may be invested in debt & money market instruments and other liquid instruments or both. The scheme may have prudent exposure to Futures & Options (F&O) to capture opportunities arising out of market imperfection and to hedge the portfolio, whenever necessary.

Stock identification process would include company and business analysis, industry analysis, future plans, projections, technical analysis and valuations. Based on analysis of various financial and non-financial parameters, the stocks will finally be shortlisted for portfolio construction process.

Formatted: Indent: Left: 0"

The Fund Manager of the scheme would also take cues from the global macroeconomic trends, Government policy and monetary policy actions to decide on the asset allocation. The allocations will be within the limits defined in the asset allocation table.

Apart from in-house research, external research is used as an important source of information. Various magazines, journals, newspapers and databases also help in the research process.

Portfolio Construction

The fund manager has the primary responsibility for portfolio construction based on the investment objective of the Scheme. Every investment decision taken is by keeping in mind the investment objective of the Scheme and how the security will affect the overall portfolio.

In addition, the current macro-economic / industry scenario is also monitored and analyzed to assess any impact on the sector and asset allocation decisions of the fund. Technical views which are relevant to asset

allocation, if applicable will also be taken into consideration. The focus would be on long term investing driven by fundamental research. However, short-term performance will also be monitored and evaluated.

EQUITY DERIVATIVE INSTRUMENTS:

Equity derivative instrument include but are not limited to futures (both stock and index) and options (stock and index).

Derivatives are financial contracts of pre-determined fixed duration, like stock Futures/options and index futures and options, whose values are derived from the value of an underlying primary financial instrument such as: interest rates, exchange rates, commodities, and equities.

Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on stock exchanges whereas OTC derivative transactions are generally structured between two counterparties. The risks associated with derivatives are similar to those associated with equity investments. The additional risks could be on account of:

1. Illiquidity
2. Potential mis - pricing of the Futures / Options
3. Inability of derivatives to correlate perfectly with the underlying (Indices, Assets, Exchange Rates)
4. Cost of hedge can be higher than adverse impact of market movements.
5. An exposure to derivatives in excess of the hedging requirements can lead to losses.
6. An exposure to derivatives can also limit the profits from a genuine investment transaction.

Exchange traded derivative contracts in stocks and indices in India are currently cash settled at the time of maturity/ expiry.

For detailed derivative strategies, please refer to **SAI**.

DEBT INVESTMENT STRATEGY:

The Fund Manager would seek to provide risk adjusted returns by optimizing the tradeoffs between liquidity, duration (interest rate movement), and credit quality, depending on the macro- economic, technical, and market factors including future course of system liquidity, interest rates, and other fiscal and monetary variables.

The investment strategy starts from analysis, then incorporates limits, looks at portfolio construction and rebalancing, and finally performance monitoring as a feedback loop.

The analysis activity starts from macroeconomic analysis, including fiscal and economic factors, impact of global and local events on India's macro-economy, and finally impact of these on the fixed income market. Technical analysis is undertaken as to the likely range of movement and deciding the timing. Market activity analysis is looked into to determine liquidity of specific securities. Credit analysis and monitoring is resorted to and dovetailed with the other analysis to determine credit quality, and ideal spreads where specific securities ought to be trading at. This is a continuous process. All this analysis is sieved through limit filters set by the investment committee.

Based on these results, portfolio construction and rebalancing is carried out. The performance of the portfolio is continuously monitored, and feedback is taken as to the performance of individual securities to test the assumptions behind the analysis. The assumptions are then tweaked from the learning incorporated by the feedback.

Based on this learning, fresh analysis is carried out for portfolio rebalancing, and the process continuously iterates.

Debt Derivatives Strategy:

The Scheme may use Derivative instruments like interest rate swaps like Overnight Indexed Swaps ("OIS"), forward rate agreements, interest rate futures (as and when permitted) or such other Derivative instruments as may be permitted under the applicable regulations. Derivatives will be used for the purpose of hedging, and portfolio balancing or such other purpose as may be permitted under the regulations and Guidelines from time to time.

The Fund will be allowed to take exposure in interest rate swaps only on a non-leveraged basis. A swap will be undertaken only if there is an underlying asset in the portfolio. In terms of Circular No. MFD.BC.191/07.01.279/1999-2000 and MPD.BC.187/07.01.279/1999- 2000 dated November 1, 1999 and July 7, 1999 respectively issued by RBI permitting participation by Mutual Funds in interest rate swaps and forward rate agreements, the Fund will use Derivative instruments for the purpose of hedging and portfolio balancing.

The Fund may also use derivatives for such purposes as maybe permitted from time to time. Further, the guidelines issued by RBI from time to time for forward rate agreements and interest rate swaps and other derivative products would be adhered to by the Mutual Fund.

IRS and FRA do also have inherent credit and settlement risks. However, these risks are substantially reduced as they are limited to the interest streams and not the notional principal amounts.

Investments in Derivatives will be in accordance with the extant Regulations / guidelines. Presently Derivatives shall be used for hedging and / or portfolio balancing purposes, as permitted under the Regulations.

For detailed derivative strategies, please refer to **SAI**.

Portfolio Turnover:

The Scheme being an open-ended Scheme, it is expected that there would be a number of Subscriptions and Redemptions on a daily basis. Further, in the debt market, trading opportunities may arise due to changes in system liquidity, interest rate policy announced by RBI, shifts in the yield curve, credit rating changes or any other factors. In the opinion of the fund manager these opportunities can be played out to enhance the total return of the portfolio, which will result in increase in portfolio turnover. There may be an increase in

transaction cost such as brokerage paid, if trading is done frequently. However, the cost would be negligible as compared to the total expenses of the Scheme. The fund manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable measure accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the Scheme will be benchmarked with **NIFTY 500 TRI**.

Justification for use of benchmark:

NIFTY 500 TRI represents the top 500 companies based on full market capitalisation from the eligible universe. The NIFTY 500 Index represents substantial portion of the free float market capitalization of the stocks listed on NSE and hence, we consider the above mentioned benchmark to be appropriate to compare the performance of this scheme. The benchmark and additional benchmark returns shall be calculated at the Total return Index (TRI) variant of the Index chosen.

The Trustee reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to the Regulations and other prevalent guidelines.

E. WHO MANAGES THE SCHEME?

The Scheme is managed by Mr. Ashutosh Shirwaikar. Their details are as under:

For disclosure w.r.t investments by key personnel and AMC directors including regulatory provisions in this regard kindly refer **SAI**.

- Investments of AMC in the Scheme – Please visit website <https://navi.com/mutual-fund/downloads/statutory-disclosure>.

The AMC may invest in the Scheme(s) anytime during the continuous offer period subject to the SEBI (MF) Regulations, 1996 . The AMC may also invest in existing schemes of the Mutual Fund. As per the existing SEBI (MF) Regulations, 1996 , the AMC will not charge Investment Management and Advisory fee on the investment made by it in the Scheme(s) or existing Schemes of the Mutual Fund.

Subject to Regulation 25(16A) of the SEBI (Mutual Funds) Regulations, 1996 read with paragraph 6.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024, the AMC shall invest such amounts in such schemes of the mutual fund, based on the risks associated with the schemes, as may be specified by SEBI from time

to time. Such investment shall be maintained at all times and shall not be redeemed unless the scheme is wound up.

PART III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, 1996, or such norms as may be specified by SEBI from time to time. In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or fair Value of Scheme's Investments + Current Assets including Accrued Income} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

The NAV shall be calculated up to four decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Option. The NAVs of the Growth Option and the Dividend Option will be different after the declaration of the first Dividend.

The NAVs will be calculated for all the Business days.

Pursuant to Regulation 49 (3) the repurchase Price of the units of an open ended scheme will not be lower than 97% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only.

Deleted: 5

Illustration on Computation of NAV:

If the net assets of the Scheme are Rs. 10,55,55,000.00 and units outstanding are 1,00,00,000 then the NAV per unit will be computed as follows: 10,55,55,000.00 / 1,00,00,000 = Rs. 10.5555 per unit.

Ongoing price for Redemption (sale) /Switch outs (to other schemes/plans of the Mutual Fund) by Investors.

Ongoing price for redemption /Switch out (to other Schemes/Plans of the Mutual Fund) is the price which a Unit holder will receive for redemption/Switch-outs. During the continuous offer of the Scheme, the Unit holder can redeem the Unit at Applicable NAV.

Methodology for calculation of sale and re-purchase price of the units of mutual fund scheme:

Let's assume that the NAV of a Mutual Fund Scheme on April 01, 2024 is Rs. 10/-.

Purchase of mutual fund units:

The Purchase Price of the Units on an ongoing basis will be same as Applicable NAV.

Purchase Price = Applicable NAV

In the above example, purchase is done on April 01, 2024, when the Applicable NAV = Rs. 10/-

Therefore, Purchase Price = Rs. 10/-

As per existing Regulations, no entry load is charged with respect to applications for purchase / additional purchase of mutual funds units.

Redemption/Re-purchase of mutual fund units

The Redemption Price of the Units will be calculated on the basis of the Applicable NAV subject to prevailing Exit Load, if any. In case of redemption, the amount payable to the investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

Say, in the above example the exit load applicable is:

For exit on or before 30 days from the date of allotment – 1.00%

For exit after 30 days from the date of allotment – Nil.

Scenario 1: Redemption is done during applicability of exit load

In case the investor requests for redemption on or before 30 days i.e. on or before March 31, 2025; say December 1, 2024, when the NAV of the scheme is Rs. 12/- and the exit load applicable is 1%, so the Redemption amount payable to investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

= Rs. 12 * (1-1%) = Rs. 11.88/-

Scenario 2: Redemption is done when the exit load is NIL

In case the investor requests for redemption after 30 days i.e. after March 31, 2025; say April 1, 2025, when the NAV of the scheme is Rs. 12/- and the exit load applicable is NIL, so the Redemption amount payable to investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

= Rs. 12 * (1-0) = Rs. 12/-

The aforesaid example does not take into consideration any applicable statutory levies or taxes. Accordingly, the redemption amount payable to investor shall further reduce to the extent of applicable statutory levies or taxes.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to **SAI**.

B. NEW FUND OFFER (NFO) EXPENSES

This is an ongoing scheme as on the date of updating this document. Hence, Not Applicable.

C. ANNUAL SCHEME RECURRING EXPENSES

Notes:

1) Brokerage and transaction costs which are incurred for the purpose of execution of trades up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions. The brokerage and transaction cost incurred for the purpose of execution of trade may be capitalized to the extent of 0.12 per cent and 0.05 per cent for cash market transactions and derivatives transactions respectively. Any amount towards brokerage & transaction costs, over and above the said 12 bps for cash market transactions and 5 bps for derivatives transactions respectively may be charged to the scheme within the maximum limit of total expenses ratio as prescribed under Regulation 52(6) of the SEBI (MF) Regulations, 1996 .

2) Goods & Services Tax (GST) on expenses other than investment any advisory fees, if any, shall be borne by the scheme within the maximum limit of total expenses ratio as prescribed under Regulation 52 (6) of the SEBI (MF) Regulations, 1996 .

Goods & Services Tax (GST) on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the SEBI (MF) Regulations, 1996 .

Goods & Services Tax (GST) on investment management and advisory fees shall be charged to the Scheme in addition to the maximum limit of total expenses ratio as prescribed under Regulation 52 (6) of the SEBI (MF) Regulations, 1996 .

3) Additional expenses, incurred towards different heads mentioned under sub-regulations (2) and (4) of Regulation 52 of the Regulations, not exceeding 0.05 percent of daily net assets of the scheme. Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable.

These estimates have been made in good faith as per the information available to and estimates made by the Investment Manager and are subject to change inter-se or in total subject to prevailing Regulations. Type of expenses charged shall be as per the Regulations. The AMC may incur actual expenses which may be more or less than those estimated above under any head and/or in total.

Direct Plan shall have a lower expense ratio. Commission/ Distribution expenses will not be charged in case of Direct Plan. The TER of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses/commission which is charged in the Regular Plan.

Any other expenses which are directly attributable to a Scheme maybe charged with the approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited. The recurring expenses of the Scheme (including the Investment Management and Advisory Fees) shall be as per the limits prescribed under the SEBI (MF) Regulations, 1996 .

For the actual current expenses being charged, the Investor should refer to the website of the AMC (<https://navi.com/mutual-fund/downloads/disclosure-sid-kim>)

Deleted: <#>Expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by AMFI data, from time to time are at least (a) 30 per cent of the gross new inflows into the scheme, or (b) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher; ¶

¶ In case inflows from such cities are less than the higher of (a) or (b) above, such expenses on daily net assets of the scheme shall be charged on proportionate basis in accordance with Paragraph 10.1.3 of SEBI Master Circular on Mutual Funds dated June 27, 2024.¶

¶ The expenses so charged shall be utilised for distribution expenses incurred for bringing inflows from such cities. However, the amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment. Provided further that the additional TER can be charged based on inflows only from retail investors (Para 10.1.3 of SEBI Master Circular on Mutual Funds dated June 27, 2024), has defined that inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from — retail investor) from beyond top 30 cities. Provided that the additional commission for beyond top 30 cities shall be paid as trail only. As per the AMFI Letter 35P/ MEM-COR/ 85-a/ 2022-23 dated March 03, 2023, the above B-30 incentive structure shall be in abeyance till further guidelines by SEBI.¶

Formatted: Indent: Left: 0"

The recurring expenses of the Scheme (excluding additional expenses under regulation 52(6A)(c) and additional distribution expenses for gross inflows from specified cities), as per SEBI Regulations are as follows:

Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1300	1350
Returns in Percentage (%)	13.00	13.50

D. LOAD STRUCTURE

Load is an amount, which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC; <https://navi.com/mutual-fund/downloads/disclosure-sid-kim> or may call at 18002032131 or your distributor.

As per clause 8.6 of SEBI Master Circular dated June 27, 2024, has decided that there shall be no entry Load for all Mutual Fund Schemes.

Type of Load	Load chargeable (as %age of NAV)
Exit Load	NIL

However, the Trustee shall have a right to prescribe or modify the load structure with prospective effect subject to a maximum prescribed under the Regulations.

In accordance with clause 10.8.1 of SEBI Master Circular on Mutual Funds dated June 27, 2024, to bring about parity among all class of unit holders, no distinction among unit holders would be made based on the amount of subscription while charging exit loads. The exit load charged, if any, shall be credited to the scheme. Goods and Services tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services tax shall be credited to the schemes.

Units issued on reinvestment of dividends for existing as well as prospective investors shall not be subject to load structure.

The investor is requested to check the prevailing load structure of the scheme before investing. Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of such load.
- Any other measure which the Mutual Fund may consider necessary.

The Trustee/AMC reserves the right to change the load structure subject to the limits prescribed under the Regulations. Any change in Load structure shall be only on a prospective basis i.e. any such changes would be chargeable only for Redemptions from prospective purchases (applying first in first out basis).

E. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

Pursuant to paragraph 6.11 of SEBI Master Circular on Mutual Fund dated June 27, 2024, the Scheme shall have:

- a) minimum of 20 investors and
- b) no single investor shall account for more than 25% of the corpus of the Scheme.

In case the Scheme does not have a minimum of 20 investors, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations, 1996 would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over 25% limit. Failure on the part of the said investor to redeem his exposure over 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the

notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

Section II

I. Introduction

A. Definitions/interpretation

For detailed description please refer <https://navi.com/mutual-fund/downloads/statutory-disclosure>

B. Risk factors

Scheme Specific Risk Factors

Risks associated with Equity and Equity Related Instruments:

Equity and Equity Related Instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as price volatility, volumes traded, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Scheme may be adversely affected.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, if there is a subsequent decline in the value of securities held in the Scheme's portfolio.

Investments in equity and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

Risks associated with Fixed Income Securities:

Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds, Money Market Instruments and Derivatives run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

Re-investment Risk: Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk: The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Credit Risk: This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Risks associated with Derivatives Transactions

Systematic Risk: Systematic Risk is the risk associated with the entire market. Unlike unsystematic risk, it is not linked to a specific security or sector. Systematic risk is a market risk which can be due to macro-economic factors, news events, etc.

Mark to Market Risk: This risk is on account of day to day fluctuations in the underlying Security and its derivative instrument, which can adversely impact the portfolio.

Credit Risk: The credit risk is the risk that the counter party will default in its obligations and is generally small as in a Derivative transaction there is generally no exchange of the principal amount.

Interest rate risk: Derivatives carry the risk of adverse changes in the price due to change in interest rates.

Basis Risk: When a security is hedged using a Derivative, the change in price of the security and the change in price of the Derivative may not be fully correlated leading to basis risk in the portfolio.

Liquidity risk: During the life of the Derivative, the benchmark might become illiquid and might not be fully capturing the interest rate changes in the market, or the selling, unwinding prices might not reflect the underlying assets, rates and indices, leading to loss of value of the portfolio.

Model Risk: The risk of mis-pricing or improper valuation of Derivatives.

Trade Execution: Risk where the final execution price is different from the screen price, leading to dilution in the spreads and hence impacting the profitability of the reverse arbitrage strategy.

Systemic Risk: For Derivatives, especially OTC ones the failure of one Counter Party can put the whole system at risk and the whole system can come to a halt.

The scheme may invest in various derivative products in accordance with and to the extent permitted under the regulations from time to time.

Derivatives are financial contracts of pre-determined fixed duration, like stock Futures /options and index futures and options, whose values are derived from the value of an underlying primary financial instrument such as: Equities, Interest rates, Exchange rates and Commodities.

Derivative products are specialized instruments that require investment techniques and risk analysis which are different from those associated with stocks and other traditional securities.

Derivatives are highly leveraged instruments and a small price fluctuation in the underlying can have a larger impact on its value. Thus, its use can lead to disproportionate gains or losses to the portfolio. Execution of derivatives instruments depends on the ability of the fund manager to identify good opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

"The risks associated with the use of Derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments."

Risks associated with Short Selling & Securities Lending:

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The inherent risks are Counterparty risk and liquidity risk of the stock/security being borrowed. The security being short sold might be illiquid or become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses.

Risk Factors Associated with Investments in REITs and InvITS:

- **Market Risk:** REITs and InvITS Investments are volatile and subject to price fluctuations on a daily basis owing to factors impacting the underlying assets. AMC/Fund Manager's will do the necessary due diligence but actual market movements may be at variance with the anticipated trends.
- **Liquidity Risk:** As the liquidity of the investments made by the Scheme(s) could, at times, be restricted by trading volumes, settlement periods, dissolution of the trust, potential delisting of units on the exchange etc, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk.
- **Reinvestment Risk:** Investments in REITs & InvITS may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns.
- **Regulatory/Legal Risk:** REITs and InvITS being new asset classes, rights of unit holders such as right to information etc may differ from existing capital market asset classes under Indian Law.

The above are some of the common risks associated with investments in InvITS. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

Risk factors associated with processing of transactions through Stock Exchange Mechanism:

The trading mechanism introduced by the Stock Exchange(s) is configured to accept and process transactions for mutual fund Units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognised Stock Exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing /settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the Stock Exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized Stock Exchange(s).

C. Risk Mitigation Strategies

Risk and investment are two sides of the same coin of Fund Management. Effective risk management is crucial for achieving good performance. Adequate safeguards would be incorporated in the portfolio management process. The main instrument for reducing risk is through diversification. The Fund Manager's job is to identify securities which offer higher returns with a lower level of risk. The fund will endeavour to manage the various risks associated with investing in equity and equity related instruments. Risk is expected to be reduced through diversification of portfolio across various sectors and market capitalizations. The various types of risks identified and their risk management strategies are as follows:

Risk Type	Risk Management Strategy
Quality Risk: Risk of investing in unsustainable / weak companies	Investment Universe to be created based on qualitative and quantitative factors so as to select good quality companies.
Price Risk: Risk of overpaying for a stock	A detailed research to be done on a company before investing, about business fundamentals and valuations.
Concentration Risk: Risk of Concentration	To invest across the market capitalization spectrum (though within the defined limits) and various industries.
Liquidity Risk: High Impact Costs	To control liquidity at the portfolio construction stage.
Volatility Risk: Price Volatility due to company or portfolio specific factors	To monitor overall portfolio volatility and control risk - stock / sector exposures as required.
Event Risk: Price risk due to company, sector specific or market event	Understand businesses, macro-economic and global events so as to respond to events effectively and speedily.

Risk Mitigation measures for the 3 major risks associated with fixed income securities are given below:

Interest Rate Risk Fixed income securities such as government bonds, corporate bonds, Money Market Instruments and Derivatives run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.	The modified duration of a portfolio is one of the means of measuring the interest rate risk of the portfolio. Higher is the modified duration, the fund stands exposed to a higher degree of interest rate risk. The Fund Manager would decide on the modified duration to be maintained for the portfolio at a particular point of time after taking into account the current scenario and the investment objective of the scheme. The portfolio duration will be decided after doing a thorough research on the general macroeconomic condition, political environment, systemic liquidity, inflationary expectations, corporate performance and other macroeconomic considerations. The Investment Committee of the AMC would be monitoring the portfolios constantly and would be giving direction regarding portfolio modified duration to the Fund Manager.
Credit Risk	The Investment Team would follow a bottom up

This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.	approach to create a debt Investment universe. The investment team would carry out rigorous in depth credit evaluation of the money market and debt instruments the scheme proposes to invest in. The credit evaluation will essentially be a bottom up approach and include a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term / long term financial health of the issuer. Data from external Credit Rating Agencies like CRISIL, ICRA, FITCH and CARE would be taken into account while constructing this universe. This universe would be constantly monitored by the Investment Committee which would recommend any additions/ deletions from the investment universe.
Liquidity Risk The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.	The Fund Manager would maintain adequate cash/cash equivalent securities to manage the day to day redemptions of the fund. Attention would be given to the historic redemption trends while deciding on the cash equivalent component of the portfolios. Also the Fund Manager and Dealer would be keeping track of various securities being traded in the market and would strive to keep the component of illiquid securities in the portfolio at a low percentage of the total portfolio.

II. Information about the scheme

A. Where will the scheme invest?

The corpus of the Scheme shall be invested in Equity and Equity related instruments, debt and money market instruments and in InvITs which will include but not limited to:

Deleted: REITs and

Equity and Equity Related Instruments:

1. Equity Shares.
2. Convertible debentures, convertible preference shares, warrants carrying the right to obtain equity shares, equity derivatives [units of Real Estate Investment Trust] and such other instrument as may be specified by the Board from time to time;
3. Exchange Traded Derivatives like Options and futures with equity indices or stocks as underlying.
4. Derivative instruments like Exchange Traded Interest Rate Futures, Interest Rate Swaps, Forward Rate Agreements and such other derivative instruments as permitted by SEBI/ RBI.
5. Any other instrument as may be permitted under the Regulations from time to time.

Deleted: bonds and debentures, convertible preference shares and warrants carrying the right to obtain equity shares.¶

Equity Derivatives:

Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at an agreed price. There is an agreement to buy or sell a specified quantity of financial instrument on a designated future date at a price agreed upon by the buyer and seller at the time of entering into a contract. To make trading possible, the exchange specifies certain standardized features of the contract. A futures contract involves an obligation on both the parties to fulfill the terms of the contract. SEBI has permitted futures contracts on indices and individual stocks with maturity of 1 month, 2 months and 3 months on a rolling basis. The futures contracts are settled on last Thursday (or immediately preceding trading day if Thursday is a trading holiday) of each month. Currently, the futures are settled in cash. The final settlement price is the closing price of the underlying stock(s)/ index.

Option is a contract which provides the buyer of the option (also called holder) the right, without the obligation, to buy or sell a specified asset at the agreed price on or up to a particular date. For acquiring this privilege, the buyer pays premium (fee) to the seller. The seller on the other hand has the obligation to buy or sell specified asset at the agreed price and for this obligation he receives premium. The premium is determined considering number of factors such as the market price of the underlying asset/security, number of days to expiry, risk free rate of return, strike price of the option and the volatility of the underlying asset. Option contracts are of two types, viz:

Call Option - The option that gives the buyer the right to buy specified quantity of the underlying asset at the strike price is a call option. The buyer of the call option (known as the holder of call option) can call upon the seller of the option (writer of the option) and buy from him the underlying asset at the agreed price at any time on or before the expiry of the option.

The seller (writer of the option) on the other hand has the obligation to sell the underlying asset if the buyer of the call option decides to exercise his option to buy.

Put Option - The right to sell is called put option. A Put option gives the holder (buyer) the right to sell specified quantity of the underlying asset at the strike price. The seller of the put option (one who is short Put) however, has the obligation to buy the underlying asset at the strike price if the buyer decides to exercise his option to sell.

There are two kind of options based on the date of exercise of right. The first is the European Option which can be exercised only on the maturity date. The second is the American Option which can be exercised on or before the maturity date.

Debt and Money Markets in India

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and

corporates. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities (G-Secs) market is the oldest and the largest component of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Secs market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like Cash management bills (CMBs), zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is a significant and growing part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks), Cash Management Bills (CMBs issued by RBI) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and non-government debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Tri-party repo (TREPS)
- Repo/Reverse Repo Agreement
- Treasury Bills
- Government securities with a residual maturity of < 1 year.
- Commercial Paper
- Certificate of Deposit
- Cash Management Bills

Though not strictly classified as Money Market Instruments, PSU / DFI / Corporate paper with a residual maturity of less than 1 year, are actively traded and offer a viable investment option.

The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade at competitive yields on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might

have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

The following table gives approximate yields prevailing on September 30, 2025, on some of the instruments and further illustrates this point.

Instrument	Yield Range
3-month Treasury Bill	5.35%-4.35%
1 Year Treasury Bill	5.50%-5.56%
Long Term Gsec (5 to 10 Years) Gsec	6.60%-6.70%
3 month CD (A1+)	5.65%-5.75%
3 Month CP (A1+)	5.70%-5.80%

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro-economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

The Fund Manager reserves the right to invest in such securities as maybe permitted from time to time and which are in line with the investment objectives of the Scheme.

B. What are the investment restrictions?

Pursuant to SEBI (MF) Regulations, 1996 , the following investment restrictions are applicable to the scheme:

- 1) The Scheme shall not invest more than 10 per cent of its NAV in equity shares or equity related instruments of any entity.

- 2) All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.

The Mutual Fund under all its Scheme(s) shall not own more than ten per cent of any company's paid up capital carrying voting rights or ten per cent of units of REITs issued by a single issuer, as the case may be.

Provided that the Sponsor of the Fund, its associate or group company including the asset management company of the Fund, through the Scheme(s) of the Fund or otherwise, individually or collectively, directly or indirectly, shall not have 10% or more of the share-holding or voting rights in the asset management company or the trustee company of any other mutual fund

- 3) All investments by the Scheme in CPs would be made only in CPs which are listed or to be listed.

AMFI Best Practice Guidelines Circular No.118 /2024-25) on Acceptance of financial transactions through email in respect of non-individual investor.	Non-individual Investors are requested to note the following: Risks Involved in Transacting via Email: The Non-individual investor acknowledges and accepts the inherent risks associated with conducting financial transactions via email. These risks include, but are not limited to, the possibility of unauthorized access to email communications, transmission delays, data loss, or alteration due to technical glitches or cyberattacks, which could impact the completeness or accuracy of the transaction. Additionally, emails may be susceptible to interception, unauthorized access, and other security vulnerabilities, which could lead to fraudulent transactions. Therefore, investors must be cautious while initiating financial transactions via email and should ensure the confidentiality and integrity of their communication. Limitation of Liability of AMC / RTA: The Asset Management Company (AMC) and the Registrar and Transfer Agent (RTA) shall not be held liable for any loss or damage caused by the non-receipt or delay in receiving any transaction sent by the investor via email. This includes situations where emails are not delivered, are delayed, or are intercepted due to issues beyond the control of the AMC or RTA, including but not limited to, technical failures, service provider errors, or unauthorized access to the email account. The AMC and RTA will not be responsible for any transactions that are erroneously processed or not processed due to such issues. The liability of the AMC and RTA is limited solely to the extent of ensuring that the transaction is processed once received in the proper format and within a reasonable timeframe, subject to system availability and security checks.

	Security Measures to Ensure Safe Email Communication: The AMC and RTA are committed to ensuring the highest level of security for email communications and shall implement appropriate safeguards. These measures include the use of encrypted email services, secure authentication protocols, and virus/malware scanning for all incoming and outgoing emails. Additionally, access to email accounts and transaction systems shall be restricted to authorized personnel only, and multi-factor authentication will be employed to verify the identity of the individuals initiating transactions. The AMC shall take all reasonable steps to prevent unauthorized access, disclosure, or alteration of the financial data transmitted via email. Retention of Transaction Records: The AMC and RTA will retain records of all transactions routed via email in accordance with applicable laws and regulations. These records will include, but are not limited to, transaction requests, email correspondence, and confirmation receipts, for a minimum period as mandated by regulatory authorities. The Non-Individual investor agrees that these records shall be stored in a secure digital format to ensure their integrity and availability for future reference. In addition, the AMC shall maintain an audit trail for each transaction, allowing for the traceability of emails and the status of each request submitted via email. Procedure for Addition/Deletion of Authorized Signatories: The facility to transact via email shall follow an appropriate procedure for the addition or deletion of authorized signatories. Such changes must be communicated to the AMC through a formal notification, in the form of a signed letter or email from the authorized representative of the entity, accompanied by the requisite board resolution or authority letter. The AMC shall process these changes only upon receipt of valid documentation confirming the updated list of authorized signatories. These changes will only be effective once the AMC has acknowledged receipt and validation of the notification. Authorization for Non-Individual Investors: For non-individual investors, including registered mutual fund distributors or third parties authorized by the investor, to submit financial transactions via email on behalf of the entity, the AMC and RTA require prior written authorization from the investor. This authorization should clearly state the scope of authority granted to the third party and must be submitted with each transaction request. The AMC will accept such transactions only if the relevant authorization documents are in
--	--

	place and the email corresponds with the pre-registered contact information for the entity or authorized third party. Security Procedures for Transaction Confirmation: To confirm and authenticate email-based financial transactions, the AMC will employ a range of security procedures, including digital signatures, encrypted communication, and multi-step verification processes. These procedures are designed to verify that the transaction is genuinely authorized by the investor and ensure that the instructions have not been tampered with. Upon receipt of an email transaction, the AMC will conduct thorough checks to confirm the authenticity of the request, including comparing it against the pre-registered information (email addresses, signatories, etc.). Only upon successful verification will the transaction be processed. Electronic Time Stamping and Audit Trail for Email Transactions: Each transaction processed via email shall be subject to an electronic time-stamping mechanism that records the exact time and date of receipt. This time stamp will serve as a reference point for any future inquiries or disputes regarding the transaction. Furthermore, AMC shall maintain an audit trail, tracking all actions related to the email transaction, including receipt, verification, and processing. The audit trail will provide transparency, ensure accountability, and facilitate the resolution of any issues related to email-based transactions. Change in Registered Email Address / Contact Details: Any change in the registered email address or contact details of the entity must be communicated to the AMC via a physical letter, including a scanned copy, signed by the designated authorized officials of the entity. This change request must also be supported by a copy of the relevant board resolutions or authority letter from the entity, issued on the official letterhead. The AMC will not accept email requests for such changes. Further, changes in the registered email address will not be processed unless the request complies with these requirements. This ensures that only authorized personnel can modify the contact details associated with the Non-individual investor's account. Changes in Bank Mandate: No changes to the bank mandate (including adding or modifying bank account details) will be accepted via email. Such changes must be submitted using the prescribed service request form, duly signed by the entity's authorized signatories. The form must also be accompanied by the wet signatures of the designated officials of the entity. This ensures the authenticity and validity of any change in the bank details associated
--	---

	with the Non- individual Investor's account, and that no unauthorized modifications are made via email. .Digital Signatures and Validity of Electronically Executed Documents: In case of any document executed electronically, the AMC recognizes the validity of Digital Signature Certificates (DSCs) or Aadhaar-based e-signatures provided by the authorized officials of the entity. These digitally signed documents will be treated as legally binding and valid, even if they are not sent from the registered email address of the authorized officials. B. Transparency/NAV Disclosure

The AMC will calculate the NAVs for all the Business Days. The Net Asset Value of the scheme shall be calculated on daily basis and disclosed in the manner specified by SEBI. The Asset Management Company ("AMC") shall update the NAVs on its website (<https://navi.com/mutual-fund>) and of the Association of Mutual Funds in India ("AMFI") (www.amfiindia.com) before 11.00 p.m. every Business Day. In case of any delay, the reasons for such delay would be explained to AMFI in writing. If the NAVs are not available before the commencement of Business Hours on the following day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAV.

The AMC will disclose the portfolio in a user friendly & downloadable spreadsheet format, as on the last day of the month /half year for the scheme(s) on its website (<https://navi.com/mutual-fund/downloads/portfolio>) and on the website of AMFI (www.amfiindia.com) of the Scheme within ten days from the close of each month/half year. In case of investors whose email addresses are registered with Navi MF, the AMC shall send via email both the monthly and half yearly statement of scheme portfolio within 10 days from the close of each month/half year respectively.

The AMC will make available the Annual Report of the Scheme within four months of the end of the financial year. The Annual Report shall also be displayed on the website of AMC and AMFI.

C. Transaction charges and stamp duty

Transaction Charges:

Transaction charges have been removed pursuant to SEBI Circular No. SEBI/HO/IMD/PoD1/CIR/P/2025/115 dated August 08, 2025.

Deleted: No transaction charges shall be deducted .[¶]

Stamp Duty:

A stamp duty @0.005% of the transaction value would be levied on applicable mutual fund transactions, with effect from July 01, 2020. Pursuant to levy of stamp duty, the number of units allotted on purchase transactions (including dividend reinvestment) to the unitholders would be reduced to that extent.

For further details refer **SAI**.

D. Associate Transactions

Please refer to **Statement of Additional Information**.
